ALASKA BY SMALL SHIP

ALASKA IN YACHT STYLE

Mountains erupted from the tundra, rising higher than any others in North America. Glaciers clawed their way across the landscape, scratching deep fjords into the coast and scouring archipelagos from the sea. And in the aftermath of these geologic gyrations, wildlife and marine life flourished, adapting to a land of extremes. Gaze upon wondrous sheets of topaz ice and rivers thick with spawning salmon. Navigate narrow fjords whose secrets are only revealed to small ships like ours. Find your way to Russian cathedrals, Tsimshian villages and a greater understanding of why they call this the Great Land. For an even more comprehensive experience, add a Land Tour or book a Windstar Signature Expedition excursion.
